SECTION: AiTC outreach directory

This document is the AGI Aeronautics outreach directory for AiTC. Each record is one organisation. A record lists the kind of organisation, country, city, published email addresses, website, published ATM system, and published simulator notes.

SECTION: How to read a directory record

A field that says Not published was not found in a public source. This directory does not record whether an email has been sent or whether a reply arrived. Sent and received messages stay with the organisation on the outreach map. Named personal mailboxes and unpublished contract prices are omitted.
